Speciale variant van de for loop

Example:

```
BEGIN
   FOR rec IN (SELECT *
               FROM employees
               WHERE department_id = 100) LOOP
      DBMS_OUTPUT.PUT_LINE(rec.employee_id || ' '
                            || rec.last_name);
   END LOOP;
END;
/
```

ORACLE

Speciale variant van de for loop

Example2:

```
BEGIN
   FOR lijn IN (SELECT last_name, employee_id, salary
                FROM employees
                WHERE department_id = 100) LOOP
      DBMS_OUTPUT.PUT_LINE(lijn.employee_id || ' '
                           || lijn.last_name);
   END LOOP;
END;
/
```

ORACLE
